**Discover the luminous world of Frederico Azevedo and his dazzling gardens!**

*Bloom: The Luminous Gardens of Frederico Azevedo* presents the accomplished work of Frederico Azevedo—a leading landscape designer whose work carries an emphasis on flowers, which he uses to “lure the eye through the flow of the design.”

**This stunning body of work explores the hallmarks of an Azevedo garden, featuring his signature curving, floral borders, and his creative integration of native or well-adapted plants.**

Frederico Azevedo also often creates multi-dimensional vistas using layers of flowers, trees, grasses, shrubs, and hedges to dramatic effect. The results of his impeccable designs are soft and romantic, always sophisticated and well-executed, and most importantly, site-specific to the unique conditions of any environment.

Frederico Azevedo was born in Brazil and studied landscape design in Brazil, England, and the United States. Azevedo founded Unlimited Earth Care, Inc. in 1993, to create beautiful, sustainable landscapes. He is a member of the Association of Professional Landscape Designers, the American Horticultural Society, and the Horticultural Alliance of the Hamptons. Azevedo divides his time between the Hamptons, New York City, Los Angeles, and Miami, and travels abroad frequently.

For over two decades, Azevedo’s award-winning, curated, and holistic approach to landscape design has been recognized nationally and internationally in both architectural and landscaping publications.
