

The Hermitage Birds and Flowers

Throughout the ages people have admired the perfect shapes of flowers and the natural grace of birds. They became the subjects of countless myths and legends; their images have appeared on walls and canvases; their exquisite lines have been borrowed for the creation of jewellery and architecture. The Hermitage's extremely rich collection makes it possible to explore how artists in different countries and eras have treated this eternal theme, striving to capture the fragile harmony and natural perfection of the world's flora and fauna.

Design by Vladimir Yakovlev
304 pages with 285 colour illustrations
Paperback
